Y ACHIEVERS PROGRAM

CONTINUING THE LEGACY

Since 1967, the Achievers program has played a pivotal role in ensuring that youth successfully matriculate through middle and high school. Today, there are more than 300 Achievers sites operating at Y's across the country. Through this national program, nearly 30,000 teenagers—typically first generation college attendees, students of color, and/or underrepresented students—are developing critical 21st century skills with support from the Y.

At the Y, we believe all children and teens deserve the opportunity to discover their potential. The YMCA of Metropolitan Milwaukee is one of 300 Achievers programs in the country that helps teens explore, set and pursue educational and career goals; raise their academic standards; develop a positive sense of self; and connect with professionals who can offer guidance and encouragement.

The YMCA Achievers Program (Y Achievers) reaches into the heart of the community for both its adult and teen Achievers. By recognizing and utilizing the talents of professionals of color who are experts in various professional disciplines, they lead teens in their discovery of unlimited career paths and work to make sure teens understand the academic path necessary to reach their career goals.

Through a multifaceted approach, Y Achievers incorporates the engagement framework of Core Program Components, The Five Pillars (at right), and the 6 to 16™ Curriculum to deliver high-quality college and career readiness programming with measurable outcomes.

All players have a one-on-one "Buddy" to assist them on and off the field; parents and caregivers get to enjoy the game from the stands.

GYMNASTICS

TAKING THE GOLD

One of the greatest things we can give a child is self confidence. Gymnastics, with the many small challenges of each class, builds confidence in every athlete. Forget the cartwheels, building a self confident child can impact all of the other activities in their lives.

IS YOUR CHILD NEW TO OUR GYMNASTICS PROGRAM?

1. If your child is crawling–3 years, register by age for Parent/Child, Mini Movers, or Teddy Tumblers.
2. If your child is 3 years old and has a strong sense of following directions or is 4 years old and is not yet attending Kindergarten at school, register for Preschool Gymnastics.
3. If your child is 4–6 years old and is currently attending Kindergarten at school, register for the Kindergarten class.
4. If your daughter is 6 years or older and has never taken a gymnastics class before, register for Gymnastics 1.
5. If your son is 6 years or older, register for Boys' Gymnastics.
6. If your child is transferring from another program or you are not sure of their ability, contact Alex Schmidt at aschmidt@ymcamke.org or 414-357-2828 for a skill evaluation.
7. Participants should wear athletic clothing, have hair secured away from their face, and bring their own water bottle.

Healthy Weight and Your Child's curriculum is adapted from the most widely disseminated and extensively evaluated child weight management program in the world. The family-based weight-management program emphasizes three elements: healthy eating, regular physical activity, and behavior change to elicit a positive life-long lifestyle transformation.

The program is delivered by two trained leaders: A Content Leader who delivers the education and nutrition portions of the program; and an Activity Leader who leads physical activity safely for children with obesity.

NEW! BLOOD PRESSURE SELF-MONITORING PROGRAM

Take Action to Improve Heart Health

This evidence-based initiative emphasizes that self-monitoring and tracking can play a significant role in reducing blood pressure and improving quality of life. Participants work with trained Healthy Heart Ambassadors for the duration of the four-month program to take their own blood pressure at least two times per month, attend two monthly consultations and attend monthly nutrition education seminars. Goals include increasing awareness of triggers and teaching better management practices. YMCA Healthy Heart Ambassadors are trained in proper blood pressure measurement and provide participants with blood pressure monitors approved by the American Heart Association.

According to the American Heart Association, nearly 80 million American adults have high blood pressure, and less than half have it under control. High blood pressure is a key, modifiable, risk factor for both heart disease and stroke, which are two of the leading causes of death in the United States. In an effort to address these issues, the Y designed a self-monitoring program.

YMCA'S DIABETES PREVENTION PROGRAM

CHANGE TODAY FOR A HEALTHIER FUTURE

You can reduce your risk for type 2 diabetes and gain tools for healthy living.

DID YOU KNOW?

- About 86 million American adults have prediabetes, up from 79 million in 2010.
- People with prediabetes are likely to develop type 2 diabetes within 10 years, unless they take action to prevent or delay the disease.
- Diabetes is a leading cause of heart disease, stroke, blindness, disease and nerve disease

THE GOOD NEWS...Lifestyle changes such as eating healthier, increasing physical activity and losing 7% of your weight can prevent or delay development of type 2 diabetes in those at high risk for the disease. With the YMCA's Diabetes Prevention Program, you can work with others in a small group setting to learn how to adopt habits that will improve your overall health and well-being and reduce your risk. The program, which is led by a trained Lifestyle Coach in a classroom setting, is delivered over a 12-month period, beginning with 16 weekly sessions transitioning to bi-weekly then monthly maintenance.

YMCA CAMP MINIKANI

WHERE STORIES BEGIN

Between two natural lakes on 150 pristine acres, YMCA Camp Minikani is a place where campers canoe and swim; build fires and friendships; try archery and explore the arts. However, camp is much more than a series of activities or a plot of beautiful land. Minikani is a community that is dedicated to inspiring your child's best self.

Summer camp is one of those unique settings that provides positive role models who help shape a child's character. It's an environment where kids from all walks of life come together and learn how to not only get along, but develop deep friendships and mutual respect. Summer camp encourages children to express their individuality and stretch beyond what they thought possible. Under the thoughtful guidance of our carefully trained counselors and staff, children become more independent, develop problem-solving skills and learn how to rely on their own decisions. And the bonus? Kids have TONS of fun.

Camp Minikani offerings include Overnight Camp, Day Camp, Equestrian Camp and year-round Equestrian and Environmental Education programming—all just 30 minutes from downtown Milwaukee. Summer camp is one of the greatest gifts you can give your children. We hope you'll consider a week or two of camp this summer.
