WATER EXERCISE SCHEDULE

Fall 1 2019: September 3rd - October 27th

Fall 2: October 28th - December 21st

Class Descriptions:

Complementary Classes (no fee for members):

Shallow Water Exercise:

Make the most of the resistive qualities of water to help increase your flexibility, cardio fitness level, and muscle strength. Perfect for first-time exercisers, currently active, or those looking for a good workout. This class is taught in chest deep water. Participants

Deep Water Exercise:

A powerful workout that will improve your posture, strength, and cardiovascular endurance. This non-impact exercise is a perfect alternative for individuals with knee or back problems, or those looking for a break from running or high impact activities. Participants should be comfortable in deep water.

Specialty Classes (fee):

Joint Movement:

An aquatic exercise program designed for people with arthritis and related conditions. The water provides gentle resistance to build muscle strength and support joints to encourage free movement. Participants should be comfortable in the water but do not need to have swimming skills. Please check with your physician before beginning this program.

MS/Stroke Recovery:

This class is a stretching/exercise class for those individuals that have physical limitations including but not limited to loss of movement, muscle stiffness and joint restrictions. It is great for those with MS, recovering from a stroke, fibromyalgia, or spinal injury. If you need assistance in the locker room or getting into and out of the pool please bring an aid.

Aqua Zumba:

Jump into the Latin-inspired, easy to follow, calorie-burning, dance fitness party that makes working out a splash! This program is a safe, effective, and challenging workout that integrates the Zumba formula and philosophy into traditional aqua fitness, moving against the resistance of the water.

**Package prices for Aqua Zumba are listed on the front.
